Adjustability

Seat Height

Raise the seat height by pulling up on the lever with no weight applied on the seat. Lower the seat height by sitting in the chair and pulling up on the lever.

Headrest

Adjust the headrest height and tilt angle to the desired position by applying pressure up or down.

Lumbar

Position the lumbar support for optimal support by adjusting it up or down.

Back Tilt Locking

Lock the back at 3 different positions by leaning to the desired location and pushing the lever in. Unlock the backrest by pulling out the lever.

Backrest Tension

Adjust the tension in the backrest by spinning the knob underneath the seat. Turn right to increase tension and turn left to decrease tension.
